are proud sponsors of DR PAT LOVE

We have much pleasure in inviting you to join us in four exciting, informative and unique days of Pat's wisdom, compassion, humour and grace as she gently guides us through the subjects of
Love, Sex, Relationships
& the new BRAIN SCIENCE!

Love-Relationship Matters

is a business that is dedicated to educating people how to create & build conscious relationships and families. Our professional services provide practical, user-friendly therapy, coaching, education, workshops and trainings for couples, individuals, families, organizations & businesses.

Susie Itzstein & Shelton Huettig
are the Directors of
Love-Relationship Matters.

They are highly experienced relationship counsellors and educators based in Perth & Seattle. Susie and Shelton are trained in a wide range of therapeutic models and bring a wealth of knowledge, skills and compassion to their work. As Advanced Clinicians in Imago Relationship Therapy and the primary certified Workshop Presenters in Australia, they teach Harville Hendrix's Imago Couples, Singles and Parenting Workshops in Australia, USA & Canada.

IMAGINE how different the world would be if it was the norm to learn how to be in a relationship and how to be a parent. All life is about being in relationship – be it with ourselves, partners, children, family, friends, work colleagues & neighbours..... We require skills to communicate and to connect, and to do so effectively, we need to regularly update our learning. We are in the business of teaching such skills.

It is our privilege to be of service to you.

Revitalizing Your Relationships
Informative. Empowering.
Practical.

30 Jan: University of WA PUBLIC LECTURE

31 Jan: How Your Physiology Affects Your Relationships

1 Feb: Making Marriage Counselling Work

2-3 Feb: WORKSHOP Revitalizing Your Relationships
– Love, Sex & Connection

www.imagomatters.org

Workshop Description

31 January:

How Your Physiology Affects Your Relationships:

Topics include how DEPRESSION, ANXIETY, HORMONES, DIFFERING SEX DRIVE and TRAUMA destroy relationships and exciting new techniques which can alleviate them. Participants will learn the fundamental physiological differences between men and women, the connection between hormones and harmony, anxiety and depression, and how using this information leads to happy relationships.

1 February:

Making Marriage and Relationship Counselling Work

Learn why traditional relationship and marriage counselling have a low success rate. Theories of how change happens are being transformed by breakthroughs in neuroscience. Effecting change in your life, or helping another do the same, requires a change of mind - literally. The new brain science research contra-indicates many traditional counselling approaches. Only techniques that impact the brain will facilitate permanent change. Be among the first in Australia to connect with this ground-breaking exciting new research which turns past theories on its head. This material is indispensable knowledge and tools for both professionals and the general community.

2-3 February:

Revitalizing Your Relationships – Love, Sex & Connection (for Couples & Singles)

An intensive 2-day workshop including both research and tools from her newest book co-authored with Dr Steven Stosny: **How to Improve Your Marriage without Talking about It: Finding Love Beyond Words** and material from her popular book **Hot Monogamy**. Why does love start with a sizzle, then go to a fizzle? Learn how to keep passion alive past the infatuation stage and in all stages of life. Pat will show why “relationship talk” often does not help and the answer to marital happiness is learning to connect without words. This critically acclaimed work shows how biological differences in the way the sexes experience fear and shame are underneath most couples’ fights and their growing apart.
